WORK EXPERIENCE

Frontend Developer June 2023 - Nov 2025

Ørsted Services Malaysia Sdn Bhd Bangsar South, KL, MY

- Worked in a feature team consisting of 3 Frontend Developers, 4 Sitecore Developers, 1 QA, 1 Scrum Master, and 1 PO. Collaborated closely with other teams within our ART under the Agile SAFe framework.
- Maintained and implemented new features for 60+ global public-facing websites, utilizing Sitecore 10.4 and a custom Webpack-based frontend solution.
- Developed and improved shared web components following best practices, including Block Element Modifier (BEM) for semantic markup and styling, and software principles such as DRY and KISS to ensure maintainable and scalable code.
- Improved SEO performance and Core Web Vitals across public sites, notably reducing Cumulative Layout Shift (CLS) from poor (red) to consistent good (green) scores.
